My Introduction

My name is Maryam Saleh. I'm from Pir Jo Goth but I recently moved to Karachi for university education.

I did my High school graduation from PakTurk Maarif International Schools and Colleges in the year 2021.

Currently I'm attending Paf Kiet university for my undergraduate degree in computer science.

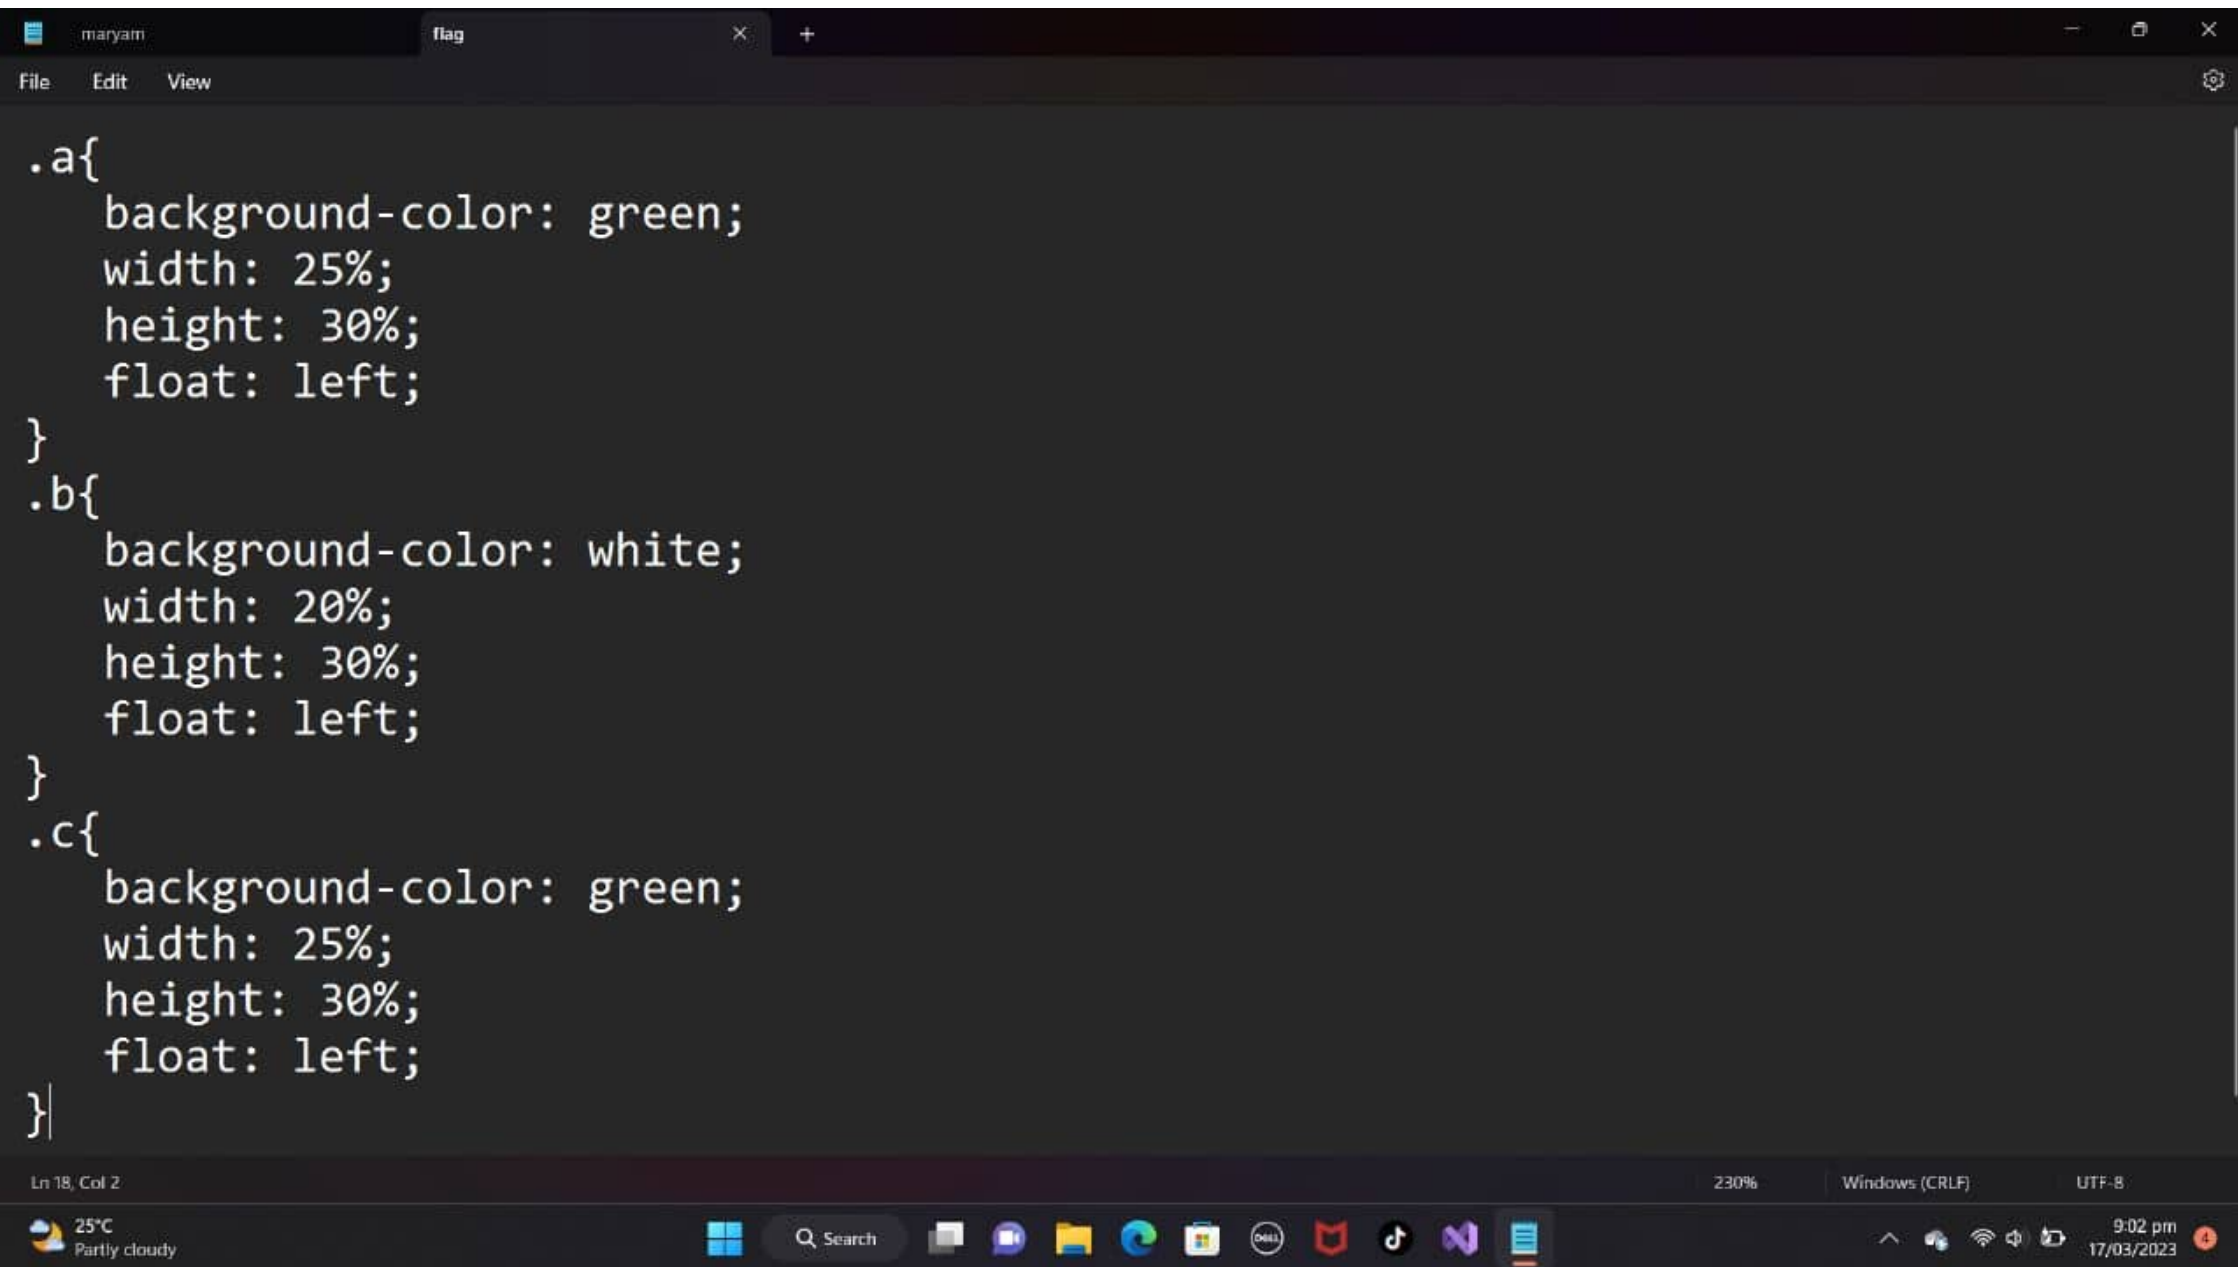

The image shows a Windows 11 desktop environment. A code editor window is open, displaying HTML code. The code defines a document structure with a title, a link to a CSS file, and three empty divs. The taskbar at the bottom shows various application icons, including the Start menu, Search, File Explorer, Edge, and several social media or utility apps. The system tray on the right indicates the time and date as 9:02 pm on 17/03/2023, along with weather and network status icons.

The image shows a Windows 11 desktop environment. A Visual Studio Code (VS Code) editor window is open, displaying CSS code for three classes: .a, .b, and .c. The code is as follows:

```
.a{
  background-color: green;
  width: 25%;
  height: 30%;
  float: left;
}
.b{
  background-color: white;
  width: 20%;
  height: 30%;
  float: left;
}
.c{
  background-color: green;
  width: 25%;
  height: 30%;
  float: left;
}
```

The VS Code window has a dark theme. The top bar shows the file name 'flag' and standard window controls. The bottom status bar indicates 'Ln 18, Col 2', '230%' zoom, 'Windows (CRLF)', and 'UTF-8' encoding.

The Windows taskbar is visible at the bottom, showing the Start button, a search bar, and several pinned application icons including File Explorer, Microsoft Edge, and others. The system tray on the right shows the date and time as '9:02 pm 17/03/2023' and a weather widget indicating '25°C Partly cloudy'.
